PRODUCT CATALOGUE

Eco-friendly. Everyday. Everywhere.

Sileo is more than just a brand — it is a legacy that began in the 1980s, when Mr. Pradeep Gupta laid the foundation of a small business with a big vision: to provide quality disposable paper products that make everyday serving and packaging easier. With dedication, hard work, and an eye for innovation, he transformed a simple idea into a trusted name in the market. Today, carrying forward his vision, Sileo has evolved into a modern brand equipped with the latest technology machines and a strong focus on innovation. Our wide range of products includes paper cups, napkins, tissues, M-folds, kitchen rolls, and paper plates — designed to meet the needs of cafes, restaurants, hotels, cloud kitchens, and households alike. At Sileo, we believe in more than just serving convenience. We are deeply committed to sustainability. Every product we create is designed with eco-friendliness and hygiene at its core, ensuring that while we fulfill the demands of today, we also take care of tomorrow. From a humble beginning in the hands of Mr. Pradeep Gupta to becoming a brand trusted across markets, Sileo stands for quality, responsibility, and innovation — because your trust inspires us to serve better every day.
